Explanation of symbols	**Bildzeichen-erläuterungen**	**Signification des picto-grammes**	**Legenda dei simboli**	**Значение пиктограммы**
Passenger cars, vans	Pkw, Kleintransporter	VL, fourgonnette	Autovetture e piccoli furgoni	Легковые и легкие коммерческие автомобили
Date / installation period	Datum / Einbauzeitraum	Date / période de montage	Data / periode di montaggio	Дата / период сборки
Low beam	Abblendlicht	Feux de croisement	Luce anabbagliante	Ближний свет
High beam	Fernlicht	Projecteurs longue portée	Luce abbagliante	Дальний свет
Fog light	Nebellicht	Feux antibrouillard	Luce fendinebbia	Противотуманная фара
Parking light	Standlicht	Feux de position	Luce di posizione	Стояночный фонарь
Front indicator	Blinklicht vorn	Clignotants avant / latéral	Luce di direzione anteriore	Указатель поворота передний
Rear indicator	Blinklicht hinten	Clignotants arrières	Luce di direzione posteriore	Указатель поворота задний
Side indicator	Blinklicht Seite	Clignotants latéraux	Luce di direzione laterale	Указатель поворота боковой
Tail light	Schlusslicht	Feux arrière	Luce di posizione posteriore	Задний габаритный фонарь
Stop light	Bremslicht	Feux de stop	Luce di arresto	Стоп-сигнал
Fog warning light	Nebelschlusslicht	Feux antibrouillard arrière	Luce retronebbia	Задний противотуманный фонарь
Backup light	Rückfahrlicht	Feux de recul	Luce retromarcia	Фонарь заднего хода
License-plate light	Kennzeichenlicht	Eclairage de plaque d'immatriculation	Luce targa	Освещение номерного знака
Interior light	Innenraumlicht	Eclairage d'habitacle	Luce interna	Внутреннее освещение салона

BEST BRAND 2015
KATEGORIE Beleuchtung/Glühbirnen
auto motor sport

For the most demanding quality requirements

- Bosch vehicle bulbs comply with all European statutory regulations.
- UV Cut: Bosch headlamp bulbs are equipped with UV Cut to reduce the harmful UV component of the light and thus protect the plastic lenses in modern headlamp systems against ageing.
- Quality and environment – always guaranteed with Bosch: The materials used comply with the specified directives, in many cases exceeding the stipulated requirements. Bosch ensures that it uses only environmentally friendly, easy to dispose of packaging types.
- Tested quality: The quality of Bosch bulbs has been certified by the GTÜ and the Lichttechnische Institut at the University of Karlsruhe.
- “Best Brand 2015” in the lighting/bulbs category: Bosch was voted the best brand of 2015 in the lighting/bulbs category by readers of the car magazine “auto motor sport”.

Bosch spare bulb set: Making sure the lights never go out on the road

- Mandatory in many European countries
- The right spare bulb always within reach
- The Bosch Minibox: Small and handy, ideal for the glove compartment
- The Bosch Maxibox: Emergency spares for almost all automotive bulbs

Tips from Bosch for more light, better visibility and added safety

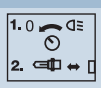
- Check the lighting system of your vehicle at regular intervals and frequently clean the headlamp lenses. Even slightly dirty lenses considerably reduce the light yield of the headlamps and lights.
- Headlamp bulbs in particular become very hot during operation. Even slightest traces of grease become burnt into the bulb reducing the service life and possibly cutting the light output. Never touch the glass of the bulbs, particularly in the headlamp.
- All new headlamp systems are supplied with plastic lenses. When exposed to ultraviolet rays, these plastic lenses gradually become cloudy. When buying new headlamp bulbs it is therefore important to watch out for bulbs with UV cut.
- The Bosch range includes various product lines for different applications. If you are re-equipping your vehicle, in other words changing to a different product line, it is essential to always replace both bulbs.
- Turn off light and ignition: This can prevent damage to the vehicle electrical/electronic system.
- Caution is advised: Avoid pulling off forcefully. This can result in damage to the socket and the mount.
- Headlamp check: Whenever a bulb has been changed, experts recommend checking the headlamp adjustment before operation.

Symbols for enhanced safety

You will find various symbols on our packaging, providing information on handling automotive bulbs.

Do not touch the glass with your fingers. Hold the bulb by the base.

Protect against splash water.



Turn off the vehicle lighting before changing the bulbs.

Do not use bulbs with scratched or damaged glass.

Wear appropriate eye protection when installing and removing.

Designated usage of the bulb: The bulb is for use on vehicles (6 V, 12 V).

Wear appropriate protective gloves when installing and removing.

Designated usage of the bulb: The bulb is for use on vehicles (24 V).

Attention: Hot!

The bulb is not suitable for domestic room lighting.

Only to be used in lamps with a protective cover.

Only to be installed by specialist personnel!

BEST BRAND 2015
KATEGORIE Beleuchtung/Glühbirnen
auto motor sport

Für höchste Qualitätsanforderungen

- Bosch-Fahrzeuglampen erfüllen alle europäischen gesetzlichen Vorschriften.
- UV-Cut: Bosch-Hauptscheinwerferlampen sind mit UV-Cut ausgestattet, um die schädlichen UV-Anteile im Licht zu reduzieren und so die Kunststoff-Streuscheiben moderner Scheinwerfersysteme vor Alterung zu schützen.
- Qualität und Umwelt – für Bosch immer selbstverständlich: Bei den Inhaltsstoffen werden die vorgegebenen Richtlinien selbstverständlich eingehalten oder die dort gestellten Anforderungen sogar übertroffen. Bei der Verpackung achtet Bosch auf umweltgerechte, einfach zu entsorgende Verpackungsvarianten.
- Geprüfte Qualität: Die Qualität der Bosch-Fahrzeuglampen wurde von der GTÜ und dem Lichttechnischen Institut der Universität Karlsruhe bescheinigt.
- „Best Brand 2015“ in der Kategorie Beleuchtung/Fahrzeuglampen: Bosch wurde von den Lesern des Automobilmagazins „auto motor sport“ 2015 zur besten Marke in der Kategorie Beleuchtung/Fahrzeuglampen gewählt.

Bosch-Ersatzlampenbox: Damit Ihnen unterwegs kein Licht ausgeht!

- Gesetzlich vorgeschrieben in vielen europäischen Ländern
- Die passende Ersatzlampe immer griffbereit
- Die Bosch-Minibox: klein und handlich, ideal für das Handschuhfach
- Die Bosch-Maxibox: Sicherheitsreserve für fast alle Fahrzeuglampen

Tipps von Bosch für mehr Licht, mehr Sicht, mehr Sicherheit

- Überprüfen Sie die Beleuchtungseinrichtung Ihres Fahrzeuges regelmäßig und reinigen Sie öfters die Scheinwerfergläser. Auch leicht verschmutzte Gläser reduzieren die Lichtausbeute der Scheinwerfer und Leuchten stark.
- Besonders die Scheinwerferlampen entwickeln im Betrieb eine sehr hohe Temperatur. Selbst geringste Fettspuren brennen sich daher im Kolben dauerhaft ein, reduzieren die Lebensdauer und können die Lichtleistung verringern. Greifen Sie daher besonders die Scheinwerferlampen nie am Glaskolben.
- Alle neuen Scheinwerfersysteme sind mit Kunststoff-Streuscheiben ausgerüstet. Unter UV-Bestrahlung trüben diese Kunststoff-Streuscheiben langsam ein. Achten Sie daher beim Kauf neuer Scheinwerferlampen immer auf Lampen mit UV-Cut.
- Im Bosch-Sortiment finden Sie verschiedene Produktlinien für unterschiedliche Einsatzzwecke. Wenn Sie Ihr Fahrzeug umrüsten, d. h. die Produktlinie wechseln, müssen auf jeden Fall immer beide Lampen ausgewechselt werden.
- Ausschalten von Licht und Zündung: Schäden an der Fahrzeugelektrik/-elektronik können so vermieden werden.
- Vorsicht ist geboten: Kräftiges Ziehen vermeiden. Ein Schaden an Stecker und Halterung könnte entstehen.
- Scheinwerfer-Check: Experten empfehlen nach jedem Lampenwechsel zusätzlich zur Kontrolle der Funktion die Scheinwerfereinstellung zu überprüfen.

Symbole für mehr Sicherheit

Auf unseren Verpackungen finden Sie verschiedenen Symbole, die Ihnen Hinweise für den Umgang mit Fahrzeuglampen geben.

	Glas nicht mit Fingern berühren. Lampe am Sockel greifen.		Vor Spritzwasser schützen
1. 0 2.	Vor Lampenwechsel Fahrzeugscheinwerfer ausschalten		Keine Lampe mit zerkratztem oder beschädigtem Glaskolben verwenden
	Beim Ein- und Ausbau geeigneten Augenschutz tragen		Vorgesehener Verwendungszweck der Lampe: Es handelt sich um eine Fahrzeuglampe (6 V, 12 V)
	Beim Ein- und Ausbau geeignete Schutzhandschuhe tragen		Vorgesehener Verwendungszweck der Lampe: Es handelt sich um eine Fahrzeuglampe (24 V)
> 200°C	Achtung: heiß		Die Lampe ist zur Raumbeleuchtung im Haushalt nicht geeignet
	Betrieb nur in Leuchte mit Schutzabdeckung		Einbau nur durch Fachkraft

LESERWAHL
BEST BRAND 2015
KATEGORIE Beleuchtung/Glühbirnen
auto motor sport

La qualité au plus haut niveau

- Les ampoules pour véhicules Bosch respectent toutes les législations européennes.
- UV-Cut: les ampoules pour projecteurs principaux Bosch sont équipées d'un filtre UV-Cut qui réduit les UV nocifs de la lumière en vue de préserver du vieillissement les diffuseurs en matière synthétique des projecteurs modernes.
- Qualité et environnement, une évidence pour Bosch: les matières utilisées respectent bien entendu les normes obligatoires ou font même encore mieux. Bosch veille à utiliser des emballages respectueux de l'environnement, faciles à éliminer.
- Qualité contrôlée: la qualité des ampoules Bosch est certifiée par la GTÜ et le «Lichttechnisches Institut» de l'Université de Karlsruhe.
- «Best Brand 2015» dans la catégorie éclairage/ampoules: en 2015, les lecteurs du magazine automobile «auto motor sport» ont élu Bosch meilleure marque dans la catégorie éclairage/ampoules.

Coffret d'ampoules de rechange Bosch: Pour ne jamais être à court de lumière !

- Obligatoire à bord des véhicules dans de nombreux pays européens
- La bonne ampoule de rechange toujours à portée de la main
- Minibox Bosch: petit et pratique, idéal pour la boîte à gants
- Maxibox Bosch: une réserve de sécurité pour la quasi-totalité des ampoules auto

Conseils pratiques de Bosch: pour plus de lumière, de visibilité et de sécurité

- Vérifiez régulièrement l'équipement d'éclairage de votre véhicule et nettoyez fréquemment les verres des projecteurs. Même légèrement sales, les verres réduisent fortement l'efficacité lumineuse des projecteurs et des feux.
- Les ampoules des projecteurs chauffent fortement pendant leur fonctionnement. De ce fait, les traces grasses les plus infimes s'incrustent définitivement dans le bulbe, réduisent la durée de vie et la puissance d'éclairage. Par conséquent, ne saisissez jamais les ampoules des projecteurs par le bulbe en verre.
- Tous les nouveaux systèmes de projecteurs sont équipés de diffuseurs en matière plastique. Sous l'effet des rayons UV, ces diffuseurs en plastique deviennent progressivement troubles. Lors de l'achat de projecteurs neufs, assurez-vous par conséquent qu'ils sont UV-Cut.
- Vous trouverez dans la gamme Bosch plusieurs lignes de produits couvrant différentes applications. Si vous changez de ligne de produits sur votre véhicule, il faut toujours remplacer les deux ampoules.
- Coupure de l'éclairage et du contact: ceci peut prévenir un endommagement de l'équipement électrique ou électronique du véhicule.
- Prudence: lors du remplacement évitez de tirer trop fort pour prévenir tout risque d'endommagement du connecteur et de la fixation.
- Ne pas toucher le verre avec les doigts: le mélange de sueur et de chaleur risque de faire éclater l'ampoule. Par conséquent, ne tenir les ampoules que par le culot.
- Contrôle des projecteurs: les experts recommandent de contrôler le réglage des projecteurs et de leur fonctionnement après chaque changement d'ampoules.

Des symboles pour plus de sécurité

Vous trouverez sur nos emballages différents symboles qui renseignent sur l'utilisation des lampes.

	Ne pas toucher le verre avec les doigts; tenir la lampe par le culot.		Protéger des projections d'eau.
1. 0 2.	Eteindre les projecteurs avant de changer une lampe.		Ne pas utiliser de lampe dont le bulbe en verre est rayé ou endommagé.
	Porter des lunettes de protection appropriées lors de la pose et de la dépose.		Usage prévu de la lampe: il s'agit d'une lampe pour véhicule (6 V, 12 V).
	Porter des gants appropriées lors de la pose et de la dépose.		Usage prévu de la lampe: il s'agit d'une lampe pour véhicule (24 V).
> 200°C	Attention: la lampe est brûlante.		La lampe n'est pas destinée à l'éclairage domestique.
	Utilisable uniquement dans un feu avec capot de protection.		Montage uniquement par un professionnel.

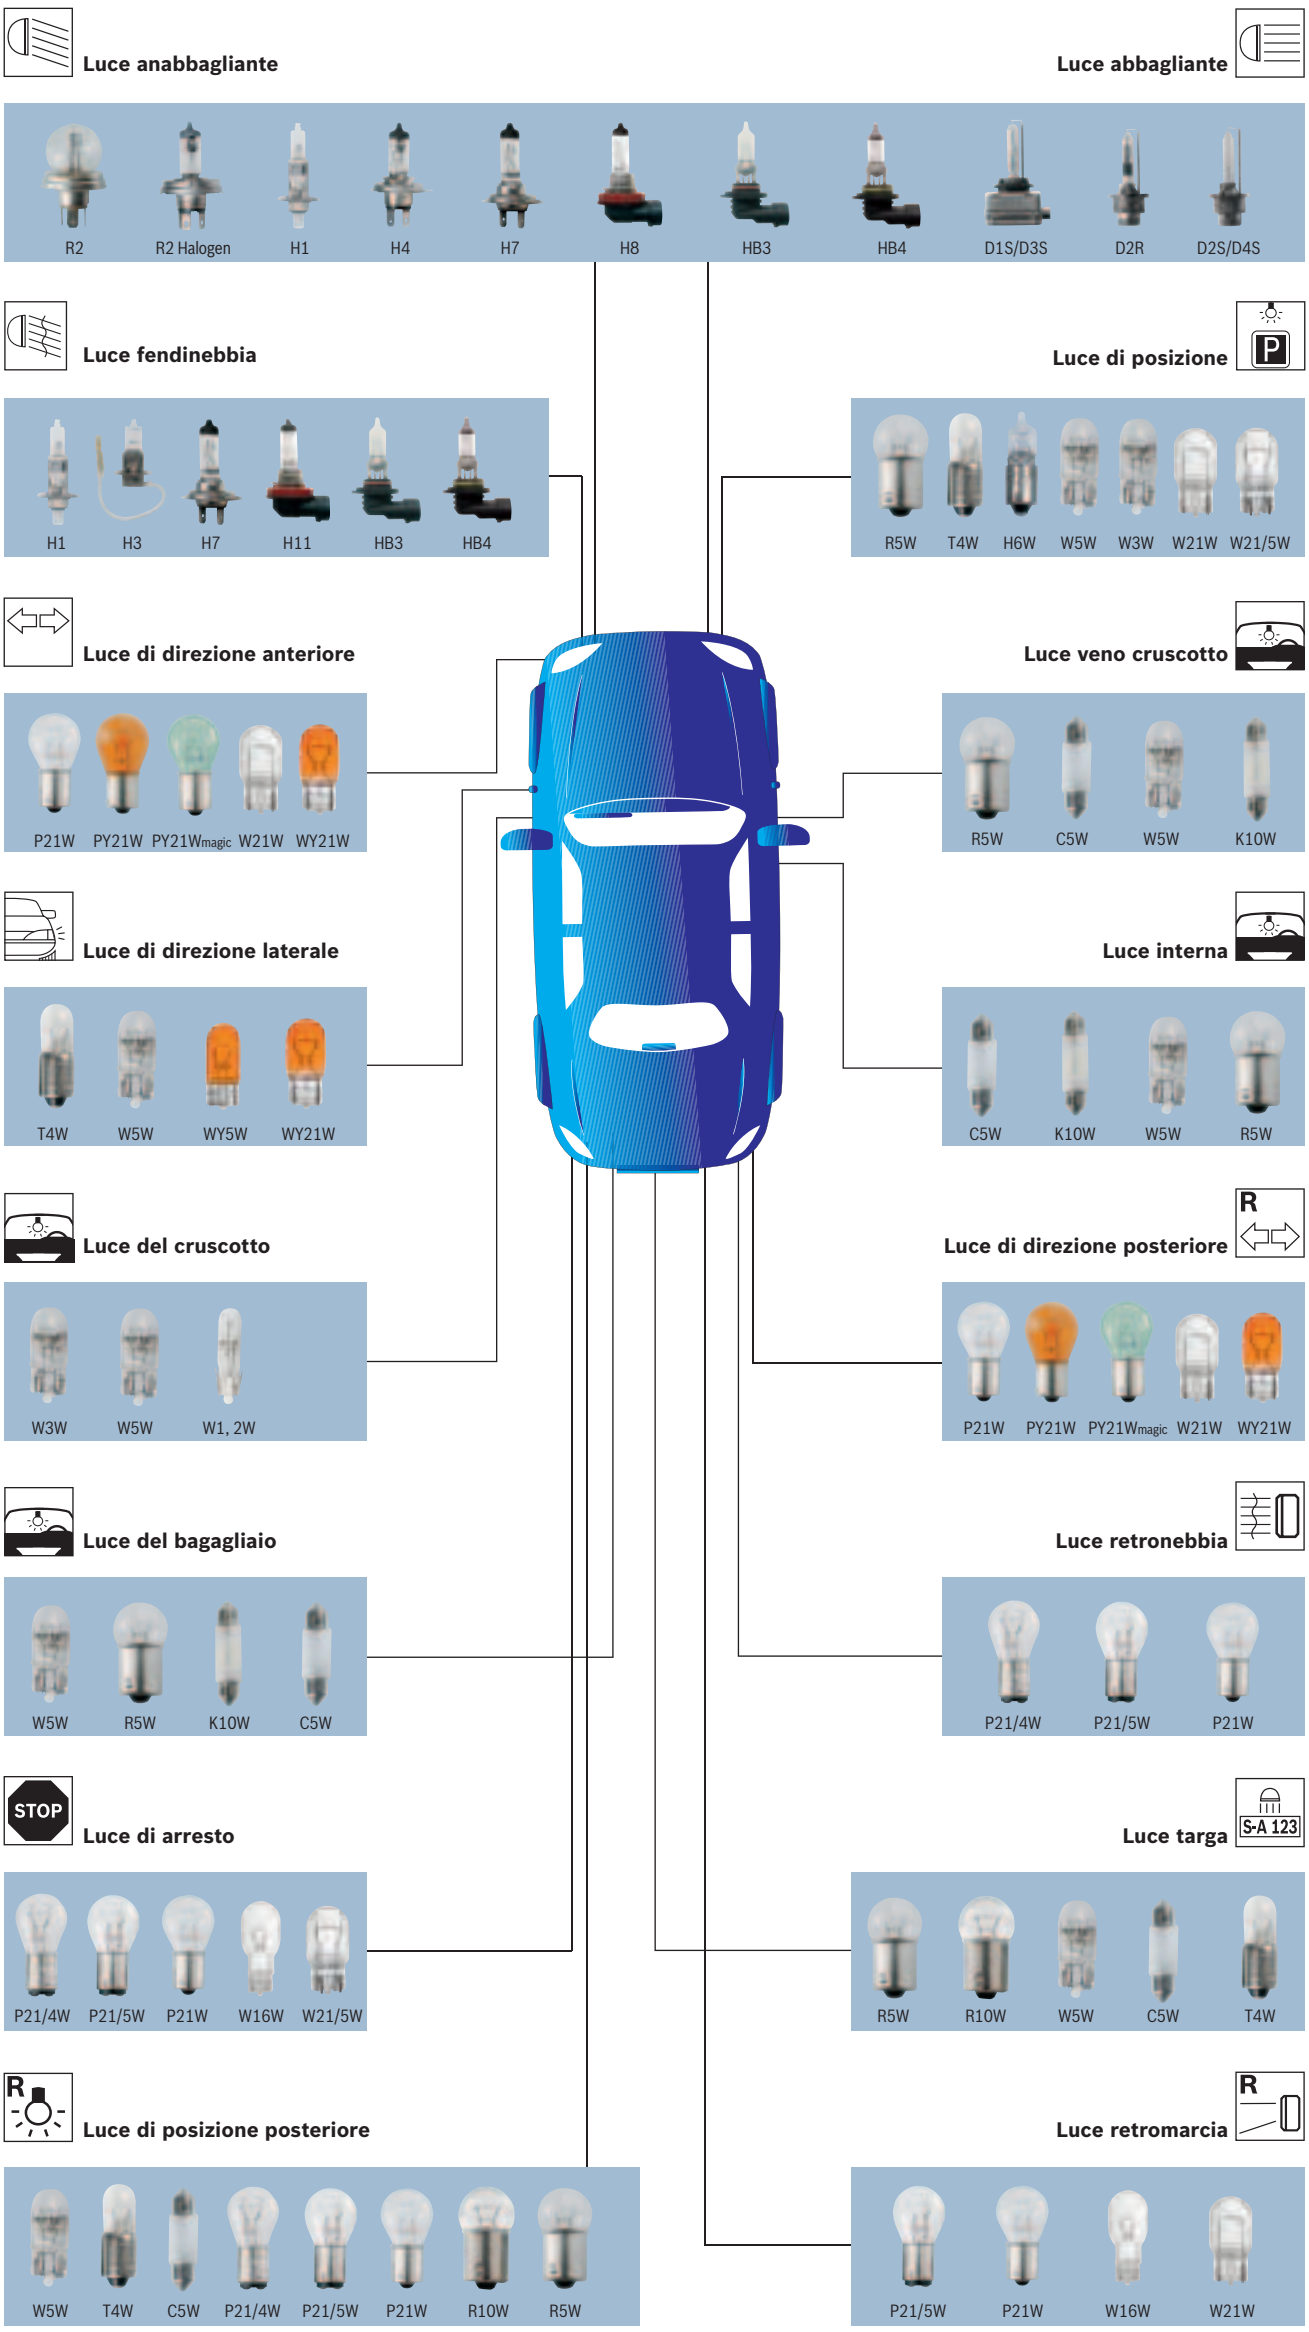
Come individuare la lampadina giusta



www.quality.gtue.de

LESERWAHL
BEST BRAND 2015
KATEGORIE Beleuchtung/Glühbirnen
auto motor sport

Per una qualità che soddisfa anche i requisiti più severi

- Le lampadine Bosch per autoveicoli soddisfano tutte le norme legislative europee.
- UV-Cut: le lampadine Bosch per fari principali sono dotate di UV-Cut per ridurre le componenti UV dannose presenti nella luce e proteggere quindi dall'invecchiamento i vetri diffusori in materiale sintetico dei moderni gruppi ottici.
- Qualità e ambiente – per Bosch sempre perfettamente compatibili: per quanto riguarda le sostanze contenute, ovviamente le direttive vigenti in materia vengono rispettate o i relativi requisiti vengono persino superati. Per quanto riguarda la confezione, Bosch presta molta attenzione alla scelta di varianti di imballaggio ecocompatibili e facili da smaltire.
- Qualità controllata: la qualità delle lampadine Bosch è certificata dall'ente tedesco di certificazione GTÜ e dall'Istituto di Illuminotecnica dell'Università di Karlsruhe.
- «Best Brand 2015» nella categoria Illuminazione/lampadine: nel 2015 Bosch è stata eletta migliore marca nella categoria Illuminazione/lampadine dai lettori della nota rivista automobilistica tedesca «auto motor sport».

Box con lampadine di ricambio Bosch: per non rimanere mai al buio!

- Dotazione obbligatoria per legge in molti Paesi europei
- La lampadina di ricambio giusta sempre a portata di mano
- Il minibox di Bosch: piccolo, maneggevole, ideale per il cassetto portaoggetti del cruscotto
- Il maxibox di Bosch: riserva di sicurezza per quasi tutte le lampadine per auto

I consigli di Bosch: più luce, più visibilità, più sicurezza

- È opportuno controllare regolarmente l'impianto d'illuminazione del proprio veicolo e pulire i vetri dei fari. Già un leggero strato di sporco riduce notevolmente il rendimento luminoso.
- Le lampadine dei fari in particolare raggiungono temperature elevatissime durante il funzionamento. Pertanto, anche minime tracce di grasso causano danni permanenti nel bulbo riducendone la durata e il rendimento luminoso. Il bulbo delle lampadine per fari non va quindi mai toccato con le mani.
- Tutti i nuovi sistemi di fari sono dotati di vetri diffusori in plastica, i quali vengono progressivamente opacizzati dall'irradiazione UV. All'acquisto di lampadine per fari, è quindi importante accertarsi che siano provviste di filtro UV.
- L'assortimento Bosch comprende diverse linee di prodotti adatti ad impieghi differenti. Passando a un nuovo tipo di lampadina, ossia cambiando linea di prodotto, si devono sostituire sempre entrambe le lampadine.
- Disinserimento delle luci e dell'accensione: in questo modo si possono evitare danni all'impianto elettrico/elettronico del veicolo.
- Agire con cautela: evitare di tirare energicamente. In caso contrario, la spina e il supporto possono subire danni.
- Non toccare il vetro con le dita: per effetto dell'azione combinata di sudore e calore sussiste il rischio che la lampadina possa scoppiare. Per questo motivo le lampadine devono essere toccate con le dita solo in corrispondenza dello zoccolo.
- Controllo fari: gli esperti consigliano di effettuare, dopo ogni sostituzione di una lampadina, non solo il controllo del funzionamento, ma anche la regolazione dei fari.

Simboli per più sicurezza

Sulle nostre confezioni troverete diversi simboli che forniscono indicazioni importanti sulla manipolazione delle lampadine.

	Non toccare il vetro con le dita. Afferrare la lampadina dallo zoccolo.		Proteggere dagli spruzzi d'acqua.
1. 0 2.	Prima di procedere alla sostituzione della lampadina, spegnere le luci del veicolo.		Non utilizzare la lampada se il bulbo di vetro è graffiato o danneggiato.
	Durante le operazioni di montaggio e smontaggio indossare idonei occhiali protettivi.		Impiego previsto della lampadina: si tratta di una lampadina per auto (6 V, 12 V).
	Durante le operazioni di montaggio e smontaggio indossare idonei guanti protettivi.		Impiego previsto della lampadina: si tratta di una lampadina per auto (24 V).
> 200°C	Attenzione: temperature elevate.		La lampadina non è idonea per l'illuminazione di ambienti domestici.
	Impiego solo all'interno di luci dotate di copertura protettiva.		Montaggio solo da parte di personale qualificato.

В соответствии с самыми высокими требованиями к качеству

- ▶ Лампы для транспортных средств Bosch соответствуют всем предписаниям европейских законов.
- ▶ УФ-фильтр: лампы Bosch для основных фар снабжены УФ-фильтром, снижающим долю вредных ультрафиолетовых лучей, защищая от износа пластиковые рассеиватели современных систем головного света.
- ▶ Качество и экологичность – неизменные свойства продукции Bosch: разумеется, используемые вещества соответствуют существующим нормам, а предъявляемые требования соблюдены порой даже с запасом. Bosch следит за тем, чтобы для создания упаковки использовались экологичные легко утилизируемые материалы.
- ▶ Подтвержденное качество: высокий уровень исполнения ламп для транспортных средств Bosch был подтвержден GTÜ и институтом осветительной техники при университете Карлсруэ.
- ▶ “Best Brand 2015” в номинации “Освещение/Лампы для транспортных средств”: в 2015 году читатели журнала “auto motor sport” признали Bosch лучшей маркой в категории “Освещение/Лампы для транспортных средств”.

Набор запасных ламп Bosch: путеводный свет, который не погаснет по дороге!

- ▶ Требуется в соответствии с законами многих европейских стран
- ▶ Подходящая сменная лампа всегда под рукой
- ▶ Мини-набор Bosch: компактно и удобно, легко хранить в бардачке
- ▶ Расширенный набор Bosch: запас почти любых ламп для транспортных средств на все случаи жизни

Советы Bosch, позволяющие увеличить освещенность, видимость и уровень безопасности

- ▶ Регулярно проверяйте осветительное оборудование вашего автомобиля и чаще протирайте рассеиватели фары. Даже незначительно испачканные фары сильно снижают световую отдачу фар и ламп.
- ▶ При эксплуатации лампы, в особенности, автомобильные, нагреваются до очень высоких температур. Поэтому даже самые незначительные следы постоянно пригорают к колбам, снижая срок службы и уменьшая световую мощность. Поэтому никогда не следует брать лампы за стеклянные колбы.
- ▶ Все новые системы головного света оснащены пластиковыми рассеивателями. Под воздействием ультрафиолетового излучения эти пластиковые рассеиватели со временем тускнеют. Поэтому при покупке новых ламп для автомобильных фар всегда следует отдавать предпочтение лампам с УФ-фильтром.
- ▶ В ассортимент Bosch входят различные линейки продуктов для различного применения. При переоснащении автомобиля и использовании другой линейки продуктов всегда необходимо менять обе лампы.
- ▶ Выключайте свет и зажигание: это позволит избежать неисправностей электрической и электронной систем автомобиля.
- ▶ При обращении требуется осторожность: не следует вытягивать лампы с применением силы. Это может привести к повреждению штекера и основания.
- ▶ Проверка фар: эксперты рекомендуют при каждой замене ламп дополнительно проверять их функционирование, регулируя положение фар.

Условные знаки, обеспечивающие более высокий уровень безопасности

На упаковках с нашей продукцией используются различные символы, указывающие на особенности обращения с лампами для транспортных средств.

- Не трогать стекло руками. Держать лампу за основание.
- Беречь от брызг воды
- Выключить фару перед заменой лампы
